=====

Hello Brian...

I am very interested in serving on the Mirabella community CDD Board. I have experience with conducting due diligence on vendors and contract management. Additionally, I work from home and am out in the community walking my dog on a daily basis. My husband and I have been residents for 4 years and really like living here. Getting involved is the best way I can think of to help give back to the community I call home.

Looking forward to hearing from you! Have a great day!

Important rate information for lighting customers

Tampa Electric is seeking a rate adjustment to increase production of clean, green energy and to make it easier for customers to do business with us. The Public Service Commission has set dates and times for hearings to provide interested Tampa Electric Company customers an opportunity to speak about the company's quality of service and the requested rate increase. Visit tampaelectric.com/rates and select Understanding Your Rates and Charges, then Customer Communications, to review the proposed lighting rates, which would take effect in January 2022.

The Board of Supervisors (the "Board") of the Mirabella Community Development District (the "District") will hold a public hearing and a meeting on Thursday August 5, 2021, at 6:00 p.m. at the Mirabella Clubhouse, 14306 Romeo Blvd., Wimauma, Florida 33598.

At the conclusion of the public hearing, the Board will, by resolution, adopt a final budget, provide for the levy, collection, and enforcement

of the O&M Assessments, and certify an assessment roll. A meeting of the Board will also be held where the Board may consider any other business that may properly come before it.

A copy of the proposed budget, preliminary assessment roll, and the agenda may be viewed on the District's website at least 2 days before the meeting (<http://mirabellacdd.com/>), or may be obtained by contacting the District Manager's office via email at bryan.radcliff@merituscorp.com or via phone at (813) 873-7300.

The public may attend the meeting at the Clubhouse or by conference line. Please check the District's website at <http://mirabellacdd.com/>, prior to the public hearing/meeting date for the call in number in order to attend via the conference line.

or speech impaired, please contact the Florida Relay Service at 711 or 1-800-955-8771 (TTY), or 1-800-955-8770 (voice) for aid in contacting the District Manager's office.

Each person who decides to appeal any decision made by the Board with respect to any matter considered at the public hearing or meeting is advised that person will need a record of proceedings and that accordingly, the person may need to ensure that a verbatim record of the proceedings is made, including the testimony and evidence upon which such appeal is to be based.

Tampa Electric Usage History

Important Messages

More clean energy to you

Tampa Electric has reduced its use of coal by 94% over the past 20 years and has cut its carbon footprint in half. This is all made possible through investments in technology that help us use more solar and cleaner, domestically produced natural gas to produce electricity. Today, Tampa Electric is the state's top producer of solar energy per customer. Our diverse fuel mix for the 12-month period ending June 2021 includes Natural Gas 74%, Purchased Power 13%, Coal 7% and Solar 6%.

Fuel increase will raise lighting bills

The cost of natural gas, which is used to generate electricity, is passed through from fuel suppliers to you with no markup or profit to Tampa Electric. Due to a significant rise in global natural gas prices, the Florida Public Service Commission (PSC) has approved an increase to customer bills from September through the end of the year. Even with this increase, the typical residential bill would remain among the lowest in Florida and significantly below the national average. Visit tampaelectric.com/ratecommunications to view the lighting rates communication included with the August billing statement, as well as resources and programs available for customers in need.

Fuel increase will raise lighting bills

The cost of natural gas, which is used to generate electricity, is passed through from fuel suppliers to you with no markup or profit to Tampa Electric. Due to a significant rise in global natural gas prices, the Florida Public Service Commission (PSC) has approved an increase to customer bills from September through the end of the year. Even with this increase, the typical residential bill would remain among the lowest in Florida and significantly below the national average. Visit tampaelectric.com/ratecommunications to view the lighting rates communication included with the August billing statement, as well as resources and programs available for customers in need.

Comments: The acid chemical pump head needs repairs but the cost to repair it is 205.22. The motor to the pump is fine we can get a brand-new pump head for an additional 80.00 that makes more since than putting money into an aging pump.
